approx 17.93mm

P

P

approx 18.34mm

T1/2

T1/2

approx 19.81mm

V

V

approx 20.17mm

How to use this guide

1. Print

Print out this document. Make sure you print **portrait** at **100%.** Print on **full image** setting and make sure the page scale is set to **'none' or '100%'**. You can check that that you have correctly printed by measuring the 5cm scale checker.

2. Measure

Put your ring on the chart and match the inside of your ring to the closest circle size. If your ring falls between two sizes, we recommend you choose the larger size.

3. Order

Order your ring size in your chosen style from our website.
